**NOTE:** We constantly add new components to our product portfolio. If you are unsure, please call to inquire about parts or service kits.

**SPECIAL REQUESTS:** If you are unsure, please call us to inquire about parts or services kits.

- 1. TUNGSTEN CARBIDE:** All seals are offered in TC. We have recently produced TC components for the UI and Votator<sup>®</sup> SSHE for specialty applications (peanut butter).
- 2. FEP O-RINGS:** All O-Rings (metric or standard) are offered in EPDM, Viton<sup>®</sup>, and Silicone core materials. These O-Rings are rated at -75F to 400F. Available in 50 or 90 Shore A Hardness. Therefore, all sealing points that rely on O-Rings can be converted for Hi-Temp/Harsh applications.
- 3. VALVE ELASTOMERS:** All valve elastomers are available in a variety of colors and compounds by special order to meet demands of your customers process.
